

Calling all **PTAs, Reflections Art Program Coordinators, Teachers and Students**, **Reflections** is right around the corner...and this year we would like to see more young artists participate from San Francisco schools.

The **2017-2018** theme is:

**“WITHIN REACH”**

It's time to start planning, thinking about, and leading the way to a **Reflections** event at your school, encouraging parents, teachers, and students to work with this years' theme.

A theme for 2018-2019 *has yet to be determined!* Students can submit potential themes via the Cal PTA [capta.org](http://capta.org) website. Look for deadlines in early September and make **Reflections** part of your school. Art promotes learning and academic success. One of your students could be rewarded nationally through their diligence and imagination!!!

### **Included in this Packet:**
